Injuries
Peninsula College provides supplemental insurance for student athletes. Only injuries that occur during a scheduled practice or game, during the season, qualify for the college's insurance.

Summit America Insurance Services, 1-800-955-1991, ext. 26, is the provider. Their coverage is considered “excess,” in that it is secondary unless the student athlete has no other insurance.

There is a $500 deductible amount that must be paid by the athlete before Summit Insurance will pay on a claim.

Because insurance coverage requires the prompt filing of claims, any injury which is suffered in a practice or a game representing Peninsula College must be reported immediately. Coaches should assist in the reporting of injuries, and providing the insurance form.

Should you be injured:
1. Report the injury to your coach immediately to establish a record of the injury. Failure to do this may result in your claim being denied.
2. If you are examined by a health care provider, be sure to complete a Summit Insurance claim form, available through your coach and/or athletic director. Remember, should you not have other insurance, you will be required to pay a $500 deductible.

Fri, May 11 – At Skagit Valley 2:00 (2)
Sat, May 12 – At Edmonds 2:00 (2)
May 16-20 – NWAACC Championships TBA

The 2006-07
Athlete

It is the philosophy of Peninsula College that the comprehensive community college should provide a broad range of academic programs, as well as the broadest possible range of healthful recreational and athletic pursuits. Within that philosophy, it is the college’s belief that:

- There is no need to compromise academic standards in the pursuit of athletic excellence.
- All students should be provided opportunities to participate in recreational activities, but participation in the college’s athletic program is a privilege.
- Athletes serve as ambassadors for the college, as well as role models for younger players and students, and are expected to maintain the highest standards of ethical conduct.
- The athlete assumes as a condition of his or her participation the obligation to serve as a model of integrity and good will.
The primary obligation of Peninsula College is to provide a comprehensive program of classes to benefit its students. Extracurricular programs including athletic programs are intended to support the college's primary purpose. The athletic department will do everything within its power to avoid conflicts with important academic dates, including finals week, when scheduling games and practice sessions. The student who participates in athletic programs is governed by Peninsula College Student Rights and Responsibilities policy which applies to all students, as well as by the expectations which follow and which result from the athlete’s special status as a Peninsula College student.

**Expectations**

**As a Student,** the athlete will:
- actively pursue a program of study at Peninsula College, enrolling in and completing at least 12 credits per quarter, each quarter except summer. It is understood that summer quarter enrollment may be used to enhance spring quarter credits.
- maintain a grade point average in Peninsula College classes of at least 2.0.
- comply with classroom requirements indicated by instructors.
- make advance arrangements with instructors to complete assignments when athletic travel requires absence.
- make continued satisfactory progress toward completion of a college program of study.
- comply with all other requirements of the Peninsula College Student Rights and Responsibilities policy.

**As an Athlete,** the student will:
- comply with the rules and regulations of the Northwest Athletic Association of Community Colleges.
- comply with coaching expectations, including participation at practices and demonstration of behavior and attitude compatible with team participation.
- serve as a positive role model for students and other athletes.
- conduct himself/herself as a representative of Peninsula College.
- comply with the policies and regulations of the college.
- comply with specific regulations regarding drug use, indicated below. The athlete will:
  1. Abstain from the use of illegal substances.
  2. Abstain from the use of any illegal drugs or medicines purported to improve physical performance.
  3. Participate when expected in educational programs dealing with the nature and consequences of substance abuse.
  4. Participate in any drug testing program mandated by Peninsula College or NWAACC.
  5. Abstain from the use of alcohol or tobacco products while representing Peninsula College, including while on travel status.

A student athlete who violates these expectations may be suspended from athletic participation, as well as from any financial assistance the college may have offered for athletic participation, and further is subject to the same disciplinary action as all other students.

**Athletic Travel Policy**

Unless specifically authorized, participants in athletic events under the sponsorship of Peninsula College will travel as a team utilizing college-provided transportation. Transportation will be arranged and provided in keeping with the college’s Travel and Motor Vehicle policies. In accepting the role of driver using either college-provided or college-authorized transportation, the vehicle operator obligates himself/herself to adhere to all laws of the state of Washington regarding safe operation of a vehicle and assumes responsibility for any misfortune which results from his/her own negligence or violation of the law.

Routes to and from authorized events must be direct.

Student drivers are not permitted unless employed and previously authorized by the college.

All passengers conveyed on athletic trips must have a role in the activity for which transportation is provided.

**Athletic Aid**

Some athletes are awarded athletic aid in the form of a scholarship or athletic employment. Only athletes from Washington, Oregon, Idaho, Montana, Nevada, California, British Columbia or Alaska qualify for athletic aid. Scholarships are awarded at the start of each quarter provided athletes are in good standing with their team and are making progress toward a degree.

Athletes who have been awarded athletic employment may apply for an on-campus job at the Office of Athletics and Student Programs. Once an athlete has secured a job, he or she is responsible to complete accurate time sheets and turn them in on the 15th and 30th of every month. Athletes who miss work or who are habitually late to work will be dismissed of that job and will forfeit their athletic employment award.

**Athletic Facilities**

Student athletes have the same access to facilities as other students. Peninsula College does not allow student athletes to have keys to the gym or to access the gym evenings or weekends without a coach or other employee present.
